SUMMARY

Final-year B.Tech IT student skilled in HTML, CSS, JavaScript, and React.js. Experienced in building responsive web applications, integrating APIs, and creating interactive user interfaces. Passionate about automation, integrations, AI-enabled systems, and modern startup technologies.

SKILLS

- **Languages:** JavaScript, Python (Basic)
- **Frontend:** HTML, CSS, React.js, Tailwind CSS
- **Backend:** Node.js, Express.js (Learning)
- **Database:** MongoDB (Basic)
- **Tools:** Git, GitHub, VS Code, REST APIs, Postman
- **Other Skills:** API Integration, Workflow Automation (Basic), Responsive Web Design, Problem Solving, AI Tools Familiarity

PROJECTS

Portfolio Website

- Designed and developed a fully responsive personal portfolio website using HTML, CSS, and JavaScript.
- Implemented modern UI/UX design principles with responsive layouts and smooth user interaction.
- Showcased projects, skills, and contact information through a clean and interactive interface.
- **Tech Stack:** HTML, CSS, JavaScript
- **Links:** Live Demo — GitHub

AI Text Summarizer

- Developed a responsive AI-powered text summarization web application using React.js and Vite.
- Integrated Google Gemini AI API to generate concise summaries from long articles, blogs, and user text input.
- Implemented reusable UI components, responsive layouts, word/sentence counter, and error handling for improved user experience.
- **Tech Stack:** React.js, Vite, JavaScript, CSS, Gemini AI API
- **Links:** GitHub — Live Demo

Currency Converter Application

- Built a currency converter using REST APIs for real-time exchange rates.
- Implemented responsive design and interactive UI features.
- **Tech Stack:** HTML, CSS, JavaScript, REST API
- **Links:** Live Demo — GitHub

EDUCATION

B.Tech in Information Technology

JIS College of Engineering

CGPA: 7.07 — Graduation: 2026

EXPERIENCE

Independent Frontend Projects

- Developed multiple responsive web applications using HTML, CSS, JavaScript, and React.js.
- Used Git and GitHub for version control and project management.
- Deployed projects using Vercel and GitHub Pages.

ACHIEVEMENTS

- Built and deployed multiple live projects independently.
- Continuously improving MERN stack and frontend development skills.
- Interested in AI-enabled automation and startup environments.
