## SUMMARY

---

Frontend Developer skilled in HTML, CSS, JavaScript, and responsive web design. Experienced in building interactive web applications, DOM manipulation, and deploying projects with live demos. Currently learning React to build scalable modern frontend applications.

## SKILLS

---

- **Languages:** JavaScript
- **Frontend:** HTML, CSS, React.js (Learning), Tailwind CSS, Bootstrap
- **Tools:** Git, GitHub, VS Code, REST APIs

## PROJECTS

---

### Portfolio Website

- Designed and developed a fully responsive personal portfolio using HTML, CSS, and JavaScript.
- Implemented modern UI/UX design and optimized performance for faster load times.
- **Links:** [Live Demo](#) — [GitHub](#)

### Rock Paper Scissors Game

- Developed an interactive browser-based game using JavaScript.
- Implemented game logic with randomization and real-time user interaction.
- Managed user input and game state using DOM updates and event handling.
- **Links:** [Live Demo](#) — [GitHub](#)

### Currency Converter Application

- Built a responsive currency converter using HTML, CSS, and JavaScript.
- Integrated exchange rate API with dynamic currency and flag updates.
- Implemented DOM manipulation and interactive UI features.
- **Links:** [Live Demo](#) — [GitHub](#)

## EDUCATION

---

### B.Tech in Information Technology

JIS College of Engineering

CGPA: 7.05 — Graduation: 2026

## EXPERIENCE

---

### Independent Frontend Projects

- Designed and developed multiple responsive web applications using HTML, CSS, and JavaScript.
- Deployed projects using platforms like GitHub page for live access.
- Used Git and GitHub for version control and project management.

## ACHIEVEMENTS

---

- Built and deployed multiple live projects independently.
- Maintaining consistency in learning and improving web development skills.
